

Goodna Security Report

Local security guide - Goodna QLD 4300 - Eastern Ipswich, City of Ipswich

About Goodna

Goodna is about 22 km south-west of the Brisbane CBD.

Goodna sits on the Brisbane River at the eastern edge of the City of Ipswich, between Brisbane and Ipswich along the Ipswich Motorway, with a small town centre, a railway station and new estates growing towards Springfield. The Queensland Police Service recorded 4,750 offences against the person and property in the Goodna police division in 2025-26, slightly down from 4,816 the year before. Assault (1,054) was the largest group, followed by other stealing (745) and property damage (668).

Housing and local context

Housing stock: Older timber and fibro homes, low-set brick houses, and new estate homes and townhouses.

Goodna is one of Ipswich's older settlements, with timber and fibro homes near the town centre and the river, low-set brick houses from later decades, and a wave of new estates and townhouses towards Springfield and Redbank Plains. Parts of the suburb have flooded in the past, which affects where alarm panels, recorders and power supplies are best installed.

Common security concerns in Goodna

- Property damage to fences, cars and homes
- Assaults and theft around the town centre
- Flood-prone areas where alarm panels and recorders should be installed high

Local tip: Keep the front lit and the side gate locked

Property damage was one of the biggest offence groups in the Goodna division last year, with 668 offences. Solid, well-kept fencing with a lockable side gate, sensor lighting at the front and a camera covering the driveway and the street make damage harder to do unseen and help identify who did it. Report every incident, even minor ones, so police can see patterns.

Before you hire: checklist

- Look up the licence number on the relevant state regulator register and confirm it is current.
- Check the ABN on the Australian Business Register (abr.business.gov.au).
- Hardwired 240V work needs a licensed electrician; in-wall data cabling needs an ACMA-registered cabler.
- For guards and patrols, confirm both the firm licence and each attending officer's licence.
- Get at least three written quotes listing camera models, recorder storage and warranty.
- Aim cameras at your own property and consider disabling audio on cameras facing shared areas.
